

Construction Permit Application

Automatic Fire-Extinguishing System:

Fire Sprinkler System 105.7.1

A construction permit is required for installation of or modification to an automatic fire-extinguishing system. Maintenance performed in accordance with this code is not considered to be a modification and does not require a permit.

Fees can be paid with VISA/Mastercard, cash, or check made payable to the "City of Dixon". Fees are required to be paid prior to plan review being started. Approximate time for plan review is two weeks after fees have been paid. **INCOMPLETE SUBMITTAL FORMS WILL BE REJECTED. Two or more sets of plans are required upon submittal. Cut sheets and calculations are required for fire alarm and sprinkler systems.** If submitting more than one set of plans with the same following information, you may use the same application. Please list each address and fill in the correct quantity.

Fire sprinkler systems designed in the City of Dixon are required to have a water flow design based off of a static 35 PSI and a 30 PSI residual pressure.

Project Name	Project Address	Contact Name(s)	Phone Number	Email Address
Builder	Mailing Address	Contact Name(s)	Phone Number	Email Address
Sprinkler Company	Mailing Address	Contact Name(s)	Phone Number	Email Address

Additional addresses being paid for if more than one with the same builder, sprinkler company, and project name

*Use backside of application for additional addresses
